

# ASIF NASEEM KAYANI

I have 1.8 years of experience working with React Native, React JS, and ASP.NET. My expertise includes developing cross-platform mobile applications and dynamic web solutions. I am skilled in creating responsive designs and implementing robust front-end features.

## Work Experience

### React Native Developer

- Developed cross-platform mobile apps using React Native, ensuring consistent performance on both iOS and Android.
- Integrated third-party APIs into React Native apps to enhance functionality and data integration.
- Implemented secure payment methods within React Native apps to facilitate transactions.

### React JS

- Built fully responsive web applications using React JS, ensuring optimal performance across devices.
- Integrated third-party APIs with React JS to extend functionality and data access in applications.
- Implemented interactive features and components in React JS to enhance user engagement.

### ASP.NET MVC Frontend Developer

- Developed fully responsive web applications using ASP.NET MVC with HTML, CSS, and JavaScript.
- Created dynamic, interactive UI components within ASP.NET MVC for enhanced user experience.
- Ensured cross-browser compatibility and adherence to web standards using ASP.NET MVC.

## Projects

### Malik Express App

- Malik Express App is built with React Native for cross-platform functionality.

### Malik Express Web Application

- Malik Express App is developed with React JS and utilizes third-party APIs for enhanced functionality.

## Skills

### Programming Languages:

- HTML
- CSS
- JAVA SCRIPT

### Tools/Software

- VS Code
- Visual Studio
- Android Studio
- Git

### Frameworks

- React Native
- React js
- Asp.Net MVC

### Languages

- English
- Urdu

## Education

### Bachelor of Science in Information Technology (BSIT)

Aug 2019 - June 2023

- ARID University, Rawalpindi

### Intermediate

Aug 2017 - June 2019

- IMCB chak shahzad
